

WHO WE ARE

A company managed by three individuals that work harmoniously together to transform and grow the language of temporary solutions, Al Fares International Tents is a market leader in every sense of the way. Founded by Mr. Fares Hussein and co-founded by his sons Mr. Hussein Fares & Mr. Hasan Fares, the UAE based company delivers top of the line solutions for temporary structures. Fares Hussein has over 47 years of experience in the marquee industry. His sons now lead the third generation in the quest to cover the world.

AlFares International Tents conceptualizes and executes turn-key solutions that comply with all industry demands. We work in alignment with our clients to tailor to their needs and execute solutions that best fit their requirements.

To achieve excellence with every project we take on, we have a strong team of highly qualified and dedicated professionals who work tirelessly in ensuring 'top-notch' conceptualization, planning and execution of every on-going project. With international safety standards being incorporated in our core values, Al Fares has adopted a zero Accident Policy. As a result, all of our structures are manufactured using International engineering building codes and experienced personnel.

OUR VALUES

VISION

Al Fares International Tents is diligently working towards a leading market position that caters to various solutions for all types of temporary structures that include marquees and shading solutions. In alignment with our core values, we reinforce world-wide corporate alliances as our foundation for success and growth to exceed the demands of the marquee industry.

MISSION

'Working to Cover the World' is a belief embedded and implemented within our system that reflects in our methodology and execution in handling every project.

VALUES

With over 47 years of experience under our roof, we are guided by strongly inherited values of trust, commitment, and excellence that drives us to maintain strong business relationships within the industry.

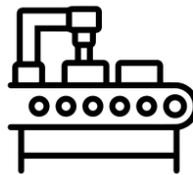

DEPARTMENTS

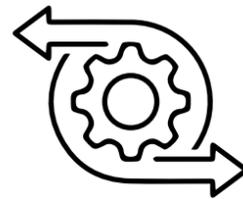

ARCHITECTURE

ENGINEERING

PRODUCTION

OPERATION

ARCHITECTURE

Our architectural team combines their expertise with the latest software such as, 3DS MAX, Autocad 2021, Adobe illustrator, Lumion 3D, After Effects VFX and Adobe Premiere to bring client's vision to life.

ENGINEERING

Our Engineers are masters at creating custom made structural solutions by incorporating the elements of durability and functionality. They are working in line with our architects, to ensure the modern designs adhere to the safety standards as per all municipality regulations and standards.

PRODUCTION

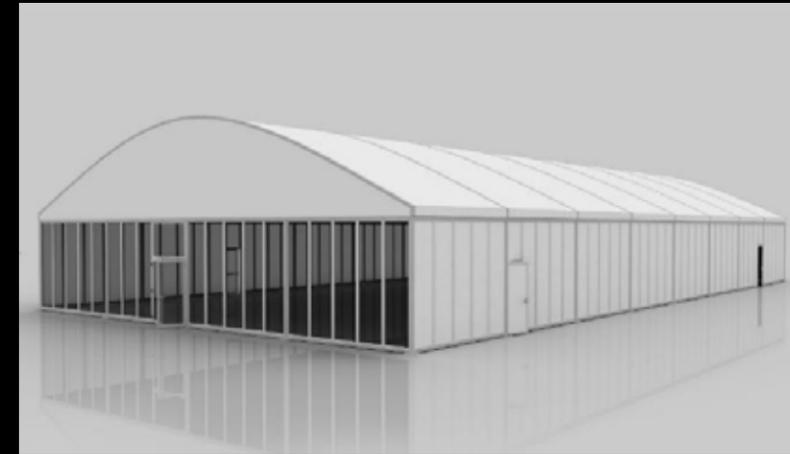

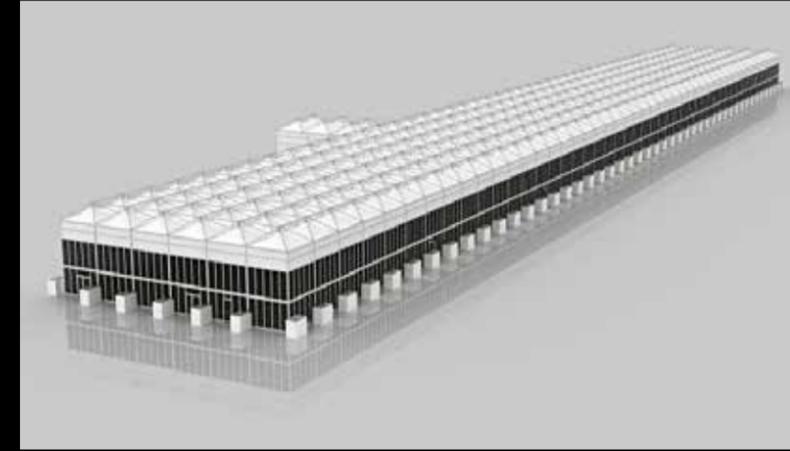

The on-site installation and dismantalling of our structures is methodologically done by our well tranied and fully equipped foremen and crew members. They have an in-depth understanding of every aspect related to the formation of all structures. They are trained to work with utmost safety while ensuring a speedy delivery for the feasibility of our clients.

OPERATION

Our operation team keeps a frequent check on the servicibility of all the products. Upon receiving an order of confirmation for any project, all the required products undergo a comprehensive maintaincence check prior to being released from our headquarters.

STRUCTURES

A Temporary structure is an ideal substitute for a traditional venue. It delivers solutions for creating, structuring, and utilizing space to meet the special needs of your temporary hospitality structures, events, exhibitions, conference halls, offices, VIP Majlises, private weddings, and many more.

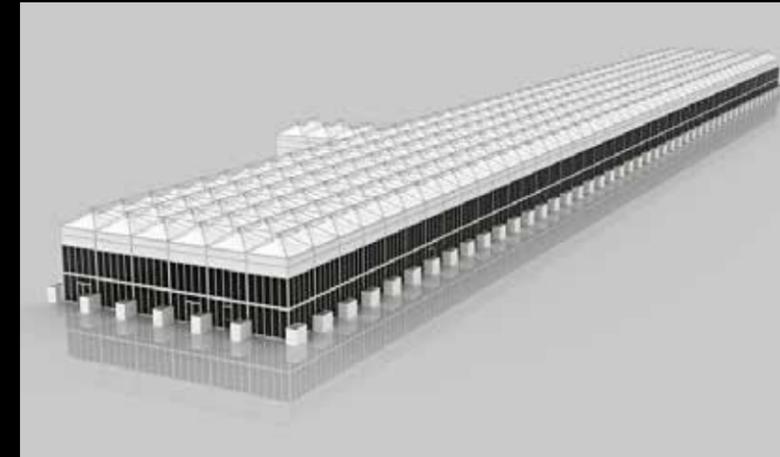

ROYAL HALL

The Royal Hall can be customized to meet your demands at the location of your choice. It comprises of 5m x 5m units with an adjustable segmented roof combined to create one cohesive element to the preferred dimensions of the structure.

AVAILABLE SIZES

Clear Span Width	:	10 - 40 M
Side Height	:	7 - 9 - 12 M
Middle Height	:	9 - 11 - 14 M
Maximum Length	:	No Limit

MULTI – STOREY

The dynamic Multi-Storey structures are an epitome of luxury, functionality and class. These structures are carefully designed to create a space for unobstructed panoramic views across multiple floors.

AVAILABLE SIZES

Clear Span Width	:	10 - 40 M
Side Height	:	6 M (Ground – 3.1 M) (Mezzanine – 2.9M)
Middle Height	:	8.6 - 10.1 M (Mezzanine – 5.5 – 7 M)
Maximum Length	:	No Limit

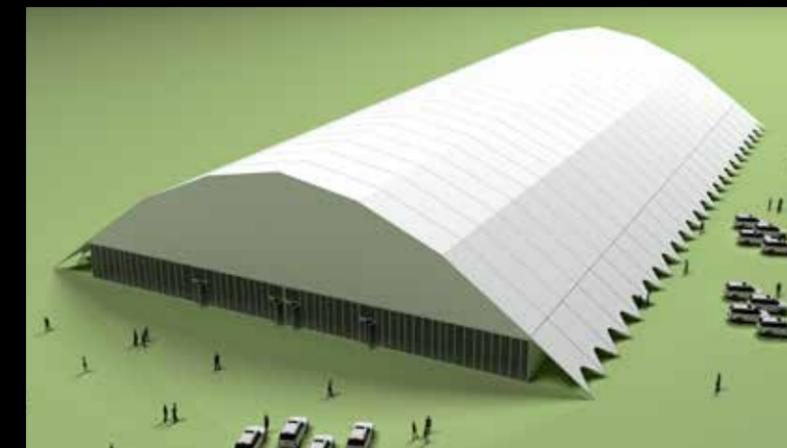

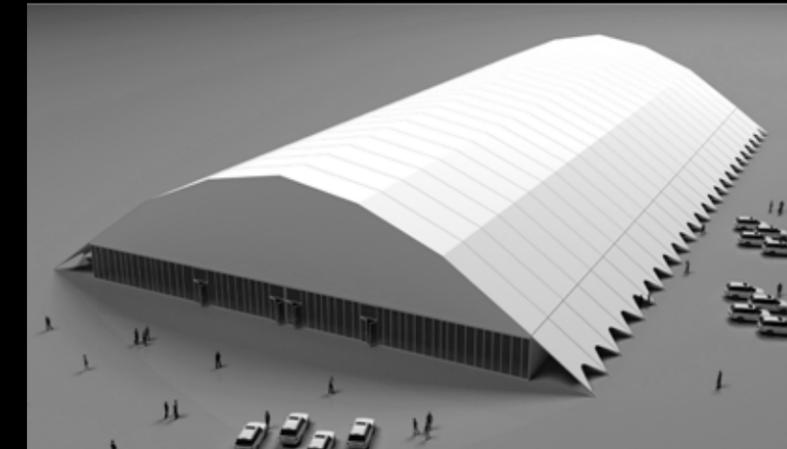

AL FARES ARENA

Al Fares Arena can be used for broad spectrum of applications from temporary stadiums, sporting arenas, conventions, large sporting events and grandstands.

AVAILABLE SIZES

Clear Span Width	:	60 - 65 M (TOTAL WIDTH- 80 – 85 M)
Side Height	:	4 – 5 – 6 - 7 M
Middle Height	:	17.8 – 20.7 M
Maximum Length	:	No Limit

ALF CUBE

A structure simple in form, yet multifaceted in function. The ALF Cube is a playground for creativity. The cube's features can be enhanced with minimal adjustments on its façade that could transform the shape entirely into a new design, that is done by the use of different cladding materials and other architectural components.

AVAILABLE SIZES

Clear Span Width	:	10 – 30 M
Side Height	:	3.3 – 4 – 6 – 7 M
Middle Height	:	5.5 - 10 M
Maximum Length	:	No Limit

ARCH MARQUEE

The Arch Tents can be stretched lengthwise to the size you desire. The curved roof shape and self-supporting aluminium structure makes it an ideal structure for any event in mind.

AVAILABLE SIZES

Clear Span Width	:	10 – 50 M
Side Height	:	3.5 – 4 – 6 M
Middle Height	:	5.5 – 12.5 M
Maximum Length	:	No Limit

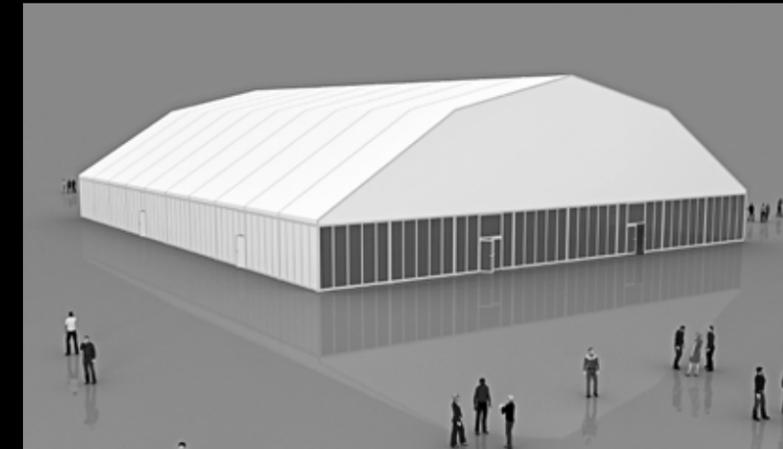

MAJESTIC MARQUEE

A geometric design that can expand to 60 m of clear span width and an unlimited length, the Majestic tent is amongst the most requested structures for larger than life events. It has the ability to accommodate a huge amount of individuals under one roof and plenty of room to modify the aesthetics as per client's desirability.

AVAILABLE SIZES

Clear Span Width	:	15 – 60 M
Side Height	:	4 – 6 M
Middle Height	:	5.5 – 13.5 – 15.4 M
Maximum Length	:	No Limit

DIAMOND MARQUEE

Diamond tents are unique structures that serve best as 360° observation decks, exclusive exhibitions and projection mapping. Having a clear diameter is one of the strongest aspects of this structure, as it allows unobstructed movement within the structure.

AVAILABLE SIZES

Clear Día	:	10, 15, 20, 25, 30 M
Side Height	:	3 – 4 – 6 M
Middle Height	:	5.5 – 13.5 – 15.4 M

CLASSICAL MARQUEE

A structure that can be installed in any location you desire. This structure provides a clear horizon and is extremely spacious. It is suitable for many purposes such as temporary shelter on a temporary storage facility.

AVAILABLE SIZES

Clear Span Width	:	10 – 30 M
Side Height	:	3 – 4 M
Middle Height	:	6 – 8.8 M
Maximum Length	:	No Limit

DOME MARQUEE

Our peak shaped Dome Tent structure is ideal for product placement, garden celebrations, restaurant/shisha lounges, exhibition stalls, pop up shops, bazars, and much more. Its' unique qualities include a variety of colour options, different types of doors, and different materials.

AVAILABLE SIZES

Clear Span Width	:	3, 4, 5, 6, 7, 8, 9, 10 M
Side Height	:	2.5 – 3 M
Middle Height	:	3.7 – 7 M
Maximum Length	:	3, 4, 5, 6, 7, 8, 9, 10 M
